

## Home Learning 15th June Summer Term 2 2020

Dear Class 1

I hope you have all enjoyed celebrating World Ocean Day and continuing with our new topic Beachcombers. Sadly, the weather has not been so good this week and you have still managed to enjoy your learning and some fun activities. Thank you Charlie for sharing your sea jokes on Tapestry and letting us know what you found out watching some programmes about the ocean. Charlie found out that pollution is a problem and Maddie had told us about that in school last term. Next week you will find out a bit more about pollution and the ocean.

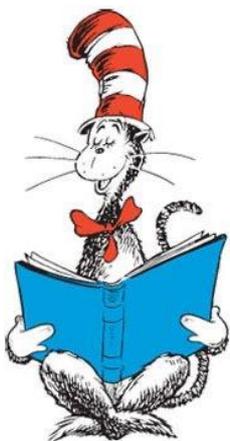

### Maths

Please continue to access the White Rose Maths Hub and complete the daily lessons provided for Summer Term 2020 Week 8 for Year 2. You are to follow the link for the alternative videos. The work sheets are in the home learning packs you collected on Friday. In addition, there are daily links to BBC BiteSize website. There will be a challenge on Friday.

Please continue to access two tests a week in your S and S Books. You should also continue to use Times Table Rock Stars, if possible every day. You have to reach a certain speed before you can move up a level and that means you need to go on regularly.

### English

There are some lovely stories for you to enjoy on Tapestry, read by different teachers. There is Sally and the Limpet, The Snail and the Whale, The Sea Monster and The Sharing Shell. I wonder which one you will enjoy. Please read the information sheet about hermit crabs. Can you find all the features of an information text such as, heading, title, picture and labels?

### Reading

**"The more that you read, the more things you will know.  
The more that you learn, the more places you'll go".**

**Dr Seuss**

Continue to enjoy your love of reading. Have you any seaside stories at home?

As always, please continue to access Spelling Shed. Weekly spellings will continue to be uploaded and your spelling list is in your learning pack.

I have included English opportunities through our topic, which I hope you will enjoy. This week's challenge is to try to make up a story about a sea creature.

### Topic

Please look at the Topic Grid in your packs to see what activities you can explore and engage in. **Home Learning packs** provided on Friday 12<sup>th</sup> June include activities to support the online learning opportunities and our topic Beachcombers. Look out for the memos on Tapestry.

I appreciate as always, your continued support throughout these very challenging times and would like to thank you all for your understanding and good wishes. Take care, stay safe and have a wonderful weekend.

Finally, and most importantly please continue to stay Happy and Healthy! We miss you and are very proud of you. Have a fun and fabulous week everyone!

Very Best Wishes

Mrs Grundmann and Mrs Allison
