

## Home Learning 1<sup>st</sup> June Summer Term 2 2020

Dear Class 1

I hope you have all had a lovely half term and have been able to enjoy the glorious weather. Thank you all for your continued ongoing support and understanding through the Coronavirus lockdown period. Here are some more activities for you to work on as you continue your home learning and start Summer Term 2 2020.

### Maths

Please continue to access the White Rose Maths Hub and complete the daily lessons provided for Summer Term 1 2020 Week 6 for Year 2. In addition, there are daily links to BBC BiteSize website. There will be a challenge on Friday. Please continue to access two tests a week in your S and S Books. You should also continue to use Times Table Rock Stars, if possible every day. You have to reach a certain speed before you can move up a level and that means you need to go on regularly.

### English

I have included English opportunities through topic, which I hope you will enjoy.

### Reading

**"The more that you read, the more things you will know. The more that you learn the more places you'll go". Dr Seuss**

Read and share the **Fun Facts and the Knowledge Organiser for Beachcombers** provided to support your home learning this week.

Please make sure you all log onto Spelling Shed. Your log in details are in your spelling books. I am also sending your spellings. Try to get someone to test you on your spellings.

## Topic

It is time for us to start a new topic.

*Oh, I do like to be beside the seaside. Do you?*

*That is good, because you are about to become an expert **beachcomber**. Head to your nearest beach (I appreciate this will be hard to do during these unprecedented times) to look for interesting and unusual objects, using your senses to spot, sniff and seek them out.*

*Have you seen the rock pools yet? We can take a peek into the cool water to learn about the weird and wonderful animals and plants in their microhabitats. Maybe we can sit back in a deckchair and do a little reading. What is your favourite book about the seashore? Let us invent an amazing rock pool resident. What features will it need to survive happily in its watery habitat? Make a 3-D model of your plant or creature. Got your shorts and sunglasses on? Bucket and spade at the ready? Let us get **beachcombing***

Please look at the Topic Grid to see what activities you can explore and engage in.

Finally, and most importantly please continue to stay Happy and Healthy! We miss you and are very proud of you. Have a fun and fabulous week everyone!

Mrs Grundmann and Mrs Allison
