

Our Talented Class

Home learning isn't just about doing school work. During these past few weeks, many of you have tried new things, learnt new skills and shared their talents.

George is doing the 30 Lego challenge.

Joseph has been shearing sheep and can roll the fleece efficiently.

Ella has learnt to use a sewing machine.

There's been plenty of baking and cookery:

Plus pizza, lasagne, corned beef pie, rock buns, carrot scones...

Mabel has been gardening. She has planted potatoes, onions, herbs, broccoli, carrots and tomatoes. Sophie and Cameron planted sunflower seeds and delivered some to their neighbours.

Cameron and Lucia have been identifying wild flowers and leaves.

Lots of sport going on. Avagrace has reached a new personal best running the mile, Samuel and family are doing Couch to 5km challenge, Maddie has a new bike and is not the only one cycling, Lottie and Olivia both go for pony rides and Alex has discovered a new talent, archery.

Maybe you might try something new and discover a new talent next week.

Happy half term!

Miss Jeffries
