'Believe & Achieve'

31<sup>st</sup> January 2022

Dear Parents and Carers,

As part of our science topic on teeth and digestion, we are learning about tooth decay and how to keep our teeth healthy.

Attached to this letter you will find a disclosing tablet for each child so they can identify for themselves how successful they are at removing plaque when they brush their teeth. Unfortunately, with Covid -19, we cannot do this in school at the moment so we are sending the tablet home.

Once the children have brushed their teeth, they then chew the tablet. Any new plaque turns red and old plaque turns blue but this is removed by brushing their teeth again. This is an optional activity. If the children do this, we would love to see a photo on Tapestry which we can download and print for their science books.

We hope the children are all experts at cleaning their teeth.

Thank you for your support

Mrs Grundmann and Miss Jeffries
