Year 4 Autumn Term

| Week 0 | Week 1 $\quad$ Week 2 $\quad$ Week 3 $\quad$ Week 4 | Week 5 | Week 6 | Week 7 | Week 8 | Week 9 | Week 10 | Week 11 | Week 12 | Week 13 |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Number - Place Value <br> Count in multiples of 6, 7, 9. 25 and 1000. Find 1000 more or less than a given number. <br> Recognise the place value of each digit in a four digit number (thousands, hundreds, tens and ones) <br> Order and compare numbers beyond 1000 Identify, represent and estimate numbers using different representations. <br> Round any number to the nearest 10, 100 or 1000 Solve number and practical problems that involve all of the above and with increasingly large positive numbers. <br> Count backwards through zero to include negative numbers. <br> Read Roman numerals to 100 (I to C) and know that over time, the numeral system changed to include the concept of zero and place value. | Number- Addition and Subtraction <br> Add and subtract numbers with up to 4 digits using the formal written methods of columnar addition and subtraction where appropriate. <br> Estimate and use inverse operations to check answers to a calculation. <br> Solve addition and subtraction two step problems in contexts, deciding which operations and methods to use and why. |  |  | Number - Multiplication and Division <br> Recall and use multiplication and division facts for multiplication tables up to 12 $\times 12$. <br> Count in multiples of 6, 7, 9 . 25 and 1000. <br> Use place value, known and derived facts to multiply and divide mentally, including: multiplying by 0 and 1 ; dividing by 1 ; multiplying together three numbers. <br> Solve problems involving multiplying and adding, including using the distributive law to multiply two digit numbers by one digit, integer scaling problems and harder correspondence problems such as $n$ objects are connected to mobjects. |  |  | Area <br> Find the area of rectilinear shapes by counting squares. |  |  |

Key number facts highlighted in bold.
Year 4 Spring Term

| Week 1 Week 2 Week 3 | Week 4 Week 5 | Week 6 | Week 7 | Week 8 | Week 9 | Week 10 | Week 11 | Week 12 | Week $13$ |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Number - multiplication and division <br> Recall and use multiplication and division facts for multiplication tables up to $12 \times 12$. <br> Use place value, known and derived facts to multiply and divide mentally, including: multiplying by 0 and 1 ; dividing by 1 ; multiplying together three numbers. <br> Recognise and use factor pairs and commutativity in mental calculations. <br> Multiply two digit and three digit numbers by a one digit number using formal written layout. <br> Solve problems involving multiplying and adding, including using the distributive law to multiply two digit numbers by one digit, integer scaling problems and harder correspondence problems such as $n$ objects are connected to mobjects. | Measurement: Length and Perimeter <br> Measure and calculate the perimeter of a rectilinear figure (including squares) in centimetres and metres. <br> Convert between different units of measure [for example, kilometre to metre] | Fractions <br> Recognise and show, using diagrams, families of common equivalent fractions. <br> Count up and down in hundredths; recognise that hundredths arise when dividing an object by one hundred and dividing tenths by ten. <br> Solve problems involving increasingly harder fractions to calculate quantities, and fractions to divide quantities, including non-unit fractions where the answer is a whole number. <br> Add and subtract fractions with the same denominator. |  |  |  | Decimals <br> Recognise and write decimal equivalents of any number of tenths or hundredths. <br> Find the effect of dividing a one or two digit number by 10 or 100 , identifying the value of the digits in the answer as ones, tenths and hundredths. <br> Solve simple measure and money problems involving fractions and decimals to two decimal places. <br> Convert between different units of measure [for example, kilometre to metre] |  |  |  |
