|  | Number - Place Value <br> Read, write, order and compare numbers to at least $1,000,000$ and determine the value of each digit. <br> Count forwards or backwards in steps of powers of 10 for any given number up to $1,000,000$. <br> Interpret negative numbers in context, count forwards and backwards with positive and negative whole numbers including through zero. <br> Round any number up to $1,000,000$ to the nearest 10,100 , $1000,10,000$ and 100,000 <br> Solve number problems and practical problems that involve all of the above. <br> Read Roman numerals to 1000 $(M)$ and recognise years written in Roman numerals. | Number- Addition and Subtraction <br> Add and subtract numbers mentally with increasingly large numbers. <br> Add and subtract whole numbers with more than 4 digits, including using formal written methods (columnar addition and subtraction) <br> Use rounding to check answers to calculations and determine, in the context of a problem, levels of accuracy. <br> Solve addition and subtraction multi-step problems in contexts, deciding which operations and methods to use and why. | Number - multiplication and division <br> Multiply and divide numbers mentally drawing upon known facts. <br> Multiply and divide whole numbers by 10,100 and 1000. <br> Identify multiples and factors, including finding all factor pairs of a number, and common factors of two numbers. <br> Recognise and use square numbers and cube numbers and the notation for squared (2) and cubed (3) <br> Solve problems involving multiplication and division including using their knowledge of factors and multiples, squares and cubes. <br> Know and use the vocabulary of prime numbers, prime factors and composite (non-prime) numbers. <br> Establish whether a number up to 100 is prime and recall prime numbers up to 19 | Number: Fractions <br> Compare and order fractions whose denominators are multiples of the same number. <br> Identify, name and write equivalent fractions of a given fraction, represented visually including tenths and hundredths. <br> Recognise mixed numbers and improper fractions and convert from one form to the other and write mathematical statements $>1$ as a mixed number [for example $2 / 5+4 / 5=6 /$ $5=11 / 5$ ] <br> Add and subtract fractions with the same denominator and denominators that are multiples of the same number. |  |  |  |  |

Year 5 Summer Term
